Lázaro Rosa-Violán x Metalarte

Atmospheric interior designer Lázaro Rosa-Violán turns his timeless touch to new lighting collection...

Lisa Davidson • 9 March, 2016

Born in Tangier to Catalan parents — brought up in Bilbao, Madrid and Barcelona — ‘painter, traveller, and creator of atmospheres’ [Lázaro Rosa-Violán](#) is better known for the magical touch he adds to restaurants, hotels and shops than individual product design; until now.

Having beautified spots like Barcelona’s [Cotton House Hotel](#), [Arte](#), and [El Nacional](#), here Rosa-Violán joins forces with decorative lighting brand [Metalarte](#) on an exclusive collaboration, where he will create unique items that reflect his style of mixing, modifying, and reinterpreting, past and present trends. Produced in small numbers, under a new category of *Atelier*, they will be made using the very best craftsmanship.

The first collections — *Eva* and *Frank* — are two very different lighting offerings, and have recently launched;

boasting quality marble, brass, leather, glass and all that old world style Lázaro is renowned for.
